BANGOR DAILY WHIG AND COURIER.

BY WHEELER & LYNDE. WEDNESDAY MORNING, JUNE 9, 1858. VOLUME XXIV.....NUMBER 291.

Ayers Pills

are so highly adapted to counteract all the digestive apparatus, and disease arising from impurity of the blood. A large part of all the complaints that afflict mankind are of a dyspeptic kind or a result of dyspepsia, and accordingly they find relief only in the use of those pills which are found to be the best regulators of the digestive organs.

Be pleased are the statements from some eminent physicians, of the effects in their practice.

AS A FAMILY PHYSIC

From Dr E W Carter, of New Orleans.

"Your Pills are the prince of purges. Their excellence as an aperient, build find their household, which from the list of very market index. They are so pleasant to take, that any one prefer them to any other cathartic for the cure of bilious and liver complaints, and I can mention a dozen cases in which I have at length a purgative which is worthy of the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION

From Dr Henry J Knox of St. Louis.

"Your Pills have been kind enough to send me have been all used in my practice, and have satisfied you that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system that they seem to work upon them as a charm. I have cured some cases of dyspepsia and indigestion with them which had resisted the most remedies commonly used. Indeed I have experimental faith in them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX

From Dr J G Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. The salutary effects upon the liver make them an excellent remedy when given in small doses, for bilious dysentery and diarrhœa. The ranger-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION

From Mrs. F. Sawyer, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretions when well, for partial, you proceed, and also very essential to cases of the stomach and expel worms. They are to me in the low fevers we have that I recommend as other to my patients."

CONSTIPATION — COMPLEXION.

From Dr J J Pumphs, Montreal, Canada.

"Too much can be said of your Pills for the cure of constipation. I find one of your Pills usually have I tried their efficacious as I have they are. I do join in proclaiming to the benefit of the multitude who suffer from that cause. Such a pill as this, had enough in itself to be the editor of others, is a welcome visitor. I find it a boon to the liver, but by our Pills affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA

From Dr Rachel Fell, Philadelphia.

"You were right Doctor in saying that your Pills purify the blood. They do so. I have used them of late years in my practice, and agree with your statements of their efficacy to stimulate the excretory and carry off the impurities accurate for the blood, engendering disease. They are formidable the organs of digestion and liver, tardy and sluggish into the stream.

"Such remedies as you prepare are a national boon, and deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.

From Dr Edward Smith Baltimore.

"DEAR DR. AYER: I cannot know when to select complaints where your Pills have failed. Indeed I think to say all that we can of them, which a physical medicine. I have prescribed them on an official cathartic in my daily contest with the sick, and be saying as I do that you know I state affair in the best have I of course value them highly."

"On behalf of the Public Medicine Co. Hartford Mass. who all available remedy in all the fol hands is dependent on a public from this unofficial correspondence that I hope justly follow is incontinuous. These contain no secret of mineral salts nance whatever

Ayer's Cherry Pectoral

has long been manufactured by a practical chemist, and a single ounce of it under his own eye, with its medicinal properties, is sealed and protected by law from counterfeits and adulterations. It is a preparation of the purest and most efficacious medicinal properties, and has established for itself a reputation for the cure of all diseases of the throat and pulmonary complaints. Its CONSUMPTION, COUGHS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INFLUENZA, COLDS, and a large list of consumptive patients in advanced stages of disease. As time makes these facts wider and better known, this medicine will gradually become the best relief and cure of the sick, from the log cabin of the farmer to the palaces of European kings. There is hardly a civilized country in every state and city and indeed almost every hamlet it contains. CHERRY PECTORAL is known to be a relief, if not a remedy for disease of the throat and lungs. In many foreign countries it is extensively used, and its reputation is spreading there. If there is any doubt in any mind as to what men of every station certify it has done for them, it will be only because when we see the testimonials of the lungs yield to it, if we do depend on the assurance of friends, we shall be less inclined to know. In short, if there is any reliance upon any thing, it is fully demonstrably proven that this medicine does cure the class of diseases it is designed for beyond any medicine yet made, and known to mankind. Nothing but its virtues and well merited reputation by the unmistakable benefit conferred on thousands of sufferers could originate and maintain the high public confidence it enjoys. While many inferior medicines have to thrust upon the community, have failed, and been forgotten, this has grown friends by every trial conferred gifts on all who have tried it, and they can testify to its virtues. The evidence of its cures is too numerous and remarkable to be forgotten.

BENJ C MILLER, Secretary

Such success as the present should cause every business man, with a family dependent upon him, to consider what the condition of those he loves would be suddenly taken away by death. All can now fully notice the uncertainty of fortunes made in business. The millionaire merchant of yesterday is to-day the bankrupt dealer. To guard against such reverses of fortune, nothing is so effectual as Life Insurance. The Mutual Benefit Life Insurance Company offers security and advantages not surpassed by any institution in the country—its investments are in first bonds and mortgages on real estate worth more than double the amount loaned. One half of the Premium on Life Policies may be paid by note bearing 6 per cent interest. Dividends are declared annually to those who have paid two Life premiums—there are no stockholders to take any of the profits which justly belong to those who are insured for life. Prospectuses, statements and applications will be furnished (without charge) and all information given by the undersigned Agent

Persons residing in any portion of the country desirous of insuring their lives, will be supplied with all the necessary papers and with instructions to enable them to make applications by addressing the undersigned.

PERUVIAN SYRUP,

A Protective Solution of Protoxide of Iron,

HAVING at length successfully passed the ordeal to which new discoveries in the Materia Medica are subject, must now be received as an established Medicine. Its efficacy in curing

DYSPEPSIA,

Affections of the Liver Dropsy, Neuralgia Branch s and Consumptive Tendencies. Directed State of the Blood Is a Recuperative Tonic Effects of Lead or Mercury, General Debility and all Diseases arising from Poverty of Blood cannot reasonably be a matter of doubt BEYOND QUESTION

The proofs of its efficacy are so numerous, so well authenticated and of such public character that it cannot reasonably be a matter of doubt BEYOND QUESTION

The PERUVIAN SYRUP does not profess to be a cure all but it does claim to be a cure for all those diseases arising from one cause may be cured by one remedy

The class of diseases for which the Syrup prescribed is one so peculiar that which has so often baffled the highest order of medical skill. The facts are taught the world by the successful and the safety and efficacy of the Syrup is now proved

Those who may wish for more proofs of its efficacy or the character of the Syrup cannot fail to be satisfied with the testimony of the numerous testimonials in the hands of the Agents. The statements are those of gentlemen well known in the community of Boston, and of the highest respectability

CARD.

The undersigned, having experienced the beneficial effects of the Peruvian Syrup do not hesitate to recommend it to the afflicted as a valuable remedy.

From our own observation as well as from the testimony of others, whose intelligence and integrity are altogether unquestionable we have no doubt of its efficacy in cases of Incipient Disease of the Lungs and Bronchial Passages, Dyspepsia, Liver Complaint Dropsy, Neuralgic affections, Female Weakness &c. We believe it to be from the character of those who have witnessed its cures and from our own personal observation, as we have had the opportunity of witnessing its results in our own families

Thomas A Davies, Thomas C Amory,
H H Kendall M D, Peter Harvey,
Samuel May James C Dunn

NOTICE.

It is well known that the medicinal effects of Protoxide of Iron is lost by over a brief exposure to air and that to maintain a solution of Protoxide of Iron without further oxidation, has been deemed impossible

In the Peruvian Syrup this desirable point is obtained by combination in a way so simple as to be novel and this solution may be kept without the protoxide passing into and deteriorate of the Materia Medica

SHAKESPEARE'S

COMPLETE WORKS

NEW AND ELEGANT EDITION!

EDITED BY REV ALEXANDER DYCE

To be Published by Subscription

IN TWELVE VOLS FOOL 8vo.

The labors of Mr White Mr Dyce and the wide field of Shakespearian research and criticism are everywhere known and appreciated by the students and lovers of the Great Dramatist. The recent publication of Shakespeare's Scholar was baffled with delight and satisfaction on both sides of the Atlantic, and intended for him the gratitude of every intelligent reader of Shakespeare who desired to see the text in its original purity freed of the mass of slipshod annotations explanations and attempted improvements by which it had been encumbered if not obscured, by most of the previous commentators.

The work may be regarded as the precursor of the forthcoming edition of Shakespeare's Complete Works and as indicating to some degree the peculiarities which chief of which are as follows —

I Adhesion to the text of the authentic folio of 1623 excepting where that a manifest corrupt reflect the text which the editor shows to have been carelessly assented to by compositors in preceding modernized works. II The successful emendation of many passages which are undoubtedly corrupt, and which have baffled the efforts of previous editors and commentators. III The discovery and correction of many corruptions of the text which have lurked undetected IV A judicious selection from the labors of the commentators. V The arrangement of the rhythm of Shakespeare's prose as well as verse according to the correct one to use at his time or poetic or at least as it is in the old editions, though almost universally neglected in the editions. VI The explanation of many expressions which have been misunderstood or misapplied. VII The exhibiting of the text in the old editions, though almost universally neglected in the editions. VIII The discovery of the determination of the meaning of pronouns which in numbers less strong affect a whole sentence in many the sense of the text. IX The clearing of many annotations explanations or illustrative quotation to which accidentally giving the reader the history of every disputed passage and so of the vicissitudes of the text. X The separation of the text and notes

The last section will be accompanied by a reduced facsimile of the quarto and introductory preliminary matter to the folio of 1623; by two photographic facsimiles of the title page of the old folio; one of which has never been published in this country and by a portrait Stratford Illustrate the Memoir of the Poet—which, with Essay on Aim some of which have been taken specially to illustrate the Memoir of the Poet—which, with Essay on the Text and an account of the Rise and Progress of the English Drama will appear in the first volume.

The work will be published by subscription in twelve volumes post 8vo and will be printed on new and elegant type and very superior paper

Volumes II, III, IV, V, containing the Comedies, will be ready in a few weeks The Histories in the coming Autumn and the Tragedies in the volume I contains a Life of the Poets and the critical Essays, in the course of the following Spring

Price $1,25 per volume, bound in cloth payable on delivery.

A few copies of the work will be published with India proof Impressions of the three portraits and the new wood cuts at $1,50 per volume

Subscriptions will now be received.

SANDERSON & LANDRGAN

Blue Laboratories East Cambridge and South Reading Mass

P S. Our extensive engagements in the Exhibition business have led many to suppose we furnished the Fire Works to the City of Boston last year (1857) when the unfortunate and fatal accident took place on the exhibition ground

In justice to ourselves, and in answer to enquiries, we will state that although we supplied the city of Boston for a number of years, and have contracted for the same the present year we did NOT supply them last year the contract for 1857 having been given to other parties

STATE OF MAINE.

EXECUTIVE DEPARTMENT, Augusta, May 2 1858

An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on TUESDAY, the *twenty second day of June next* Attest,

NOAH SMITH, Jn, Secretary of State

THE VOTE ON THE LIQUOR LAWS The few returns thus far received, although they are few, indicate two or three things pretty clearly

First, That the vote has been small—but the smallness has been mostly upon one side The friends of prohibition appear to have given a heavy vote in many sections of the State considering the season of the year, and the very moderate attendance which is usually had at these special elections—while on the other hand, the opponents of the prohibitory law have not voted at all out of a few localities Had there been a general effort made on the part of the License law, as would have been the open and manly course, the vote would naturally have been increased on the other side—for where there is no opposition, it is impossible to get all the friends of a measure or a policy to vote for it.

Second, That the democratic leaders have generally held back throughout the State, with the despicable intention of *preventing* the settlement of the Liquor question, and keeping the temperance cause in politics—that by means of the appetites and prejudices of men, and the promises and misrepresentations, they might possibly gain some *party* advantage — It is perfectly clear, that a desperate attempt is to be made by these unscrupulous political hacks, to get up a liquor furor at the annual election against the Republican party, on account of a law which they (the démagogues) had neither the manliness nor the courage to oppose at the proper time and place. But—

Thirdly, The vote also shows that this miserable and mean attempt will as miserably fail, for the very fact, that in a large portion of the State there have been literally no votes thrown for the License law, shows that the friends of the License law are and the hitherto supporters of the law of 1853, are after all exceedingly indifferent as to which law is in force, and are not going to boil over with indignation at the acceptance of a law against which they themselves did not see fit to vote, and especially after the Republican party had placed the matter freely and fairly before the people, and invited *every* man to say which law he preferred Had they been so full of enmity against the new law as the hunker demagogues suppose, they could not have been kept from the polls, when a fair chance was thus offered to vote their sentiments The fact is, there are thousands of Liquor men in the State, who consider that the law of 58 is as stringent against Illegal selling as the law of 53—and hat even the idea of a *licensing* system looks less a very narrow restriction of the privilege of selling To a large proportion of the liquor dealers therefore, it would make little practical difference whether the law of '58 were kept in force and *enforced*, or whether the new law should be adopted

As to the total vote thrown on the 7th inst. the indications are that it has been from 40,000 to 50 000—and that nine tenths of it is in favor of the Prohibitory Law of 1858.

THE NEGRO EMIGRATION SCHEME —A clearance was recently asked for at Charleston, S. C, for the ship Richard Cobden, to proceed to Africa and procure a cargo of emigrants to be imported in accordance with the passenger laws of the U S The Collector of Charleston requested the instructions of Secretary Cobb at Washington, who replies that as *free* negroes are not allowed to be imported or introduced, according to the laws of most of the States, it is pretty evident that the parties (Messrs Lall & & Co,) design in fact to bring over these Emigrants' as slaves—and that this is an attempt to evade the laws on African importation. He thinks therefore that the clearance should be refused.

In City Council,

MONDAY EVENING, June 7.

Petitions presented and referred—

Of Horton Dyer et als for a reservoir to be constructed near the head of Grove street.

Of Jos W Low et als, for "Highland street" to be laid out.

Of J W Cook et als, in relation to injury to their lots by reason of the surface water from Grove street being turned across said lands

Of J W Carr et als, for Garland street to be extended to Fruit street

Of Engine Co No 4 for new hose carriage

Of John Saunders et als, for Birch street to be extended to Stillwater Avenue

Of James Tobin et als, for repair of sidewalk on York street.

Reports Accepted—

Of the Committee on By Laws and Public Regulations, in relation to the selling of fish and boiling of lobsters at the Kenduskeag Bridge

Of Committee on Finance, with a resolve, making the appropriations for the present municipal year.

Of the Committee on Accounts and Claims, on several bills—and said bills ordered to be paid

Communication of Rev S L. Caldwell, resigning his office as member of the Board of S. School Committee, was read and placed on file

Passed in Concurrence—

For the Chief Engineer of Fire Department to sell any and all apparatus and articles belonging to said Department not necessary for the use of the same.

To permit cows to go at large in the streets and highways of the city, from 6 o clock A M to 8 o clock P M, until Nov 1st next, such cows to have their owners' name attached to her neck

Directing the Mayor to draw no orders on the City Treasury for account of either of the respective Departments for a larger amount than the sum appropriated by the City Council for the expenditure of such Department, and that all expenditures of each of the several departments shall be rendered and paid within 30 days after such expenditure shall have been incurred

An Ordinance for the Preservation of Health, was passed to be engrossed in the Board of Aldermen, and laid on the table in the other Board It forbids the boiling of lobsters on board of any boat or vessel in the Kenduskeag stream, or on the banks of said stream, under the penalty of $5 for each offence

In convention of the City Council, Isaac M Bragg, member elect of the Common Council, from Ward 4 to fill vacancy caused by resignation of John M Lander, appeared and was qualified

Chose P B Mills to fill the vacancy in the Board of S S Committee, caused by the resignation of Mr Caldwell

Chose A P Myrick Field Driver

In Board of Mayor and Aldermen, the report of the Committee on Streets and Highways, upon the petitions of E P Judkins and als for Pond and Hayward streets to be laid out, and also on petition of Thos B Brown et als for Sixth street to be laid out, were severally accepted, and orders passed for laying out and a grade of said streets were passed and sent down

Resolve making appropriations for the present municipal year, was passed to be engrossed and sent to the Common Council, when it was laid on the table The resolve appropriates—For Schools, $16 500
For streets, highways and bridges, 9000
Pauper Department, 8200
Fire Department, including reservoirs, 5000
City Watch, 1800
Salaries, 6000
Interest, 9500
Contingencies, 12 000

Adjourned to Monday evening, next at 7 o clock

POLICE COURT June 8th. John A. Welsch for assaulting the police with stones while engaged in arresting Michael Herrin, was compelled to pay a fine and costs amounting to $5,18.

TICKETS TO THE BAPTIST CONVENTION —Some misapprehension exists as to the arrangements for tickets to the Baptist Convention at Waterville The price of the tickets will be one-half the usual fare between Bangor and Waterville. They will not be for sale at the ticket offices on the road but may be found at the Store of Dow J C White, Main Street.

FIRE IN GLENBURN —We learn from Mr Barton, (of Barton's Express,) that a story and a half house, in the North part of Glenburn, occupied by Mr Strout, was destroyed by fire yesterday afternoon, together with most of its contents

GUILTY —George W. Young, keeper of the Franklin House, Augusta, who has been on trial in Portland for a few days past, charged with aiding and abetting a mail robbery, has been found guilty and committed to prison — It will be recollected that the Stage Driver between Belfast and Augusta was arrested, and implicated Young as his leader and assistant in the robbery

THE FRANKLIN COMPANY —We learn from the Lewiston Journal that about fifty of the largest stockholders of the Franklin Company, reached Lewiston, from Boston, last Tuesday, for the purpose of personally examining the property of the Company They dined at the DeWitt House, where speeches and toasts enlivened the dinner hour. No definite plans for further operations have as yet been determined upon. It is supposed, however, that the Bleachery will be finished this season.

DROWNED —A young man named Willis Hilton, was drowned in the vicinity of [illegible] bay on Monday.

EXCHANGE BANK It will be seen by advertisement that the Receivers of this bank are prepared to pay in full all the demands against the corporation which have been received and allowed A considerable amount of the bills has never been presented and is of course now worthless, as the time for presentation has expired We believe they are considered good currency out West.

THE UP RIVER MAIL.—A correspondent of the Union calls attention to the great inconvenience caused to the Post Offices and the people this side of Houlton, by the recent change in the departure and arrival of the up river mail. It formerly left this city at 6 in the morning, and arrived at 6 in the evening, it now leaves at 10 in the evening and arrives at 4 in the morning This arrangement makes night work all the way, and *delays* intelligence to a great proportion of the people, some *sixteen hours* The people this side of Mattawamkeag are put to great inconvenience by the change, and demand that the old order of things be restored. The people of the large towns and settlements on the Penobscot ought not to have their wishes and interests thus disregarded, in order to forward the Aroostook mail six or eight hours earlier

LUNT'S EXHIBITION TO NIGHT. The exhibition at Norombega Hall, this evening, by Mr Lunt's Juvenile Classes in Dancing, will undoubtedly be very interesting The proficiency of some of the smaller scholars, who have attended no term or less, is surprising. At the close of the exhibition the older persons will have an opportunity to dance without additional charge.

LOST OVERBOARD —Capt Lewis, of the ship Elizabeth Hamilton, which arrived at New Orleans May 25th, reports that William John Saunders, of Eastport, Me, fell from the bowsprit overboard on 17th April, when the ship was off the island of Flores, and was drowned

RECOVERING —Rev Mr. Pratt, Rector of St Stephen's Church, Portland, who has been for a long time ill, is reported as sufficiently recovered to take conveyance for Island Pond, for a more speedy restoration to health

PUSS IN A TIGHT PLACE —Some days since, one of our citizens missed a favorite cat. Her voice could be heard, but she could not be seen, nor could they, for a long time, divine where she was At last it was suspected she had passed through a stove, the funnel of which was inserted in a chimney that had its foundation in the cellar, and was hollow from the bottom, where the cat landed She probably passed through the funnel in a fit, as it is evident that no cat in her senses would go through such an erratic performance to place herself in a black hole She remained in her place of self imposed constraint two and a half days, when she was relieved by the perforation of a hole in the wall for her delivery She seemed bewildered when she suddenly emerged from profound darkness to the broad glare of day

On Friday evening, between 9 and 10 o'clock as M C N yes, was going down Mechanic street, he was struck by some one who suddenly appeared from behind a tree, and knocked senseless He recovered by the aid of a friend, and went on his way —*State of Maine*

MEDICAL SCHOOL OF MAINE The course of medical lectures for 1858 at Bowdoin College, closed on the 28th of May We append below the names of those to whom diplomas or M D were granted, and also the subject of their Theses

Lewis Allen, Cornish, *Connection between the Brain and Stomach*

Sewall A Allen, Greene, *The management of the Sick Room*

John W Cook, Gardiner, *The Duties of the Physician*

William S Dyer, San Francisco, California, *Malaria*

William L Ferguson, Woodstock, N. B, *Typhoid Fever*

Jonathan R Henderson Londonderry, N S, *Dysentery*

George Z Higgins, Exeter, *Predisposing Causes of Disease*

Samuel Hilton, Farmington, *Erysipelas*

Joseph M Merchant, N Belgrade, *Symptoms of Pregnancy*

Jacob M Moore, Monrovia, Liberia, *The African Fever*

Horace K Wheeler, Whitefield, *Insanity*.

One of the graduates, Jacob M Moore of Monrovia, is a mulatto His father is a physician in practice in Monrovia He is the second colored graduate from Old Bowdoin—John Russwurm being the first Russwurm graduated in 1826 with honor, emigrated to Liberia and afterward became governor of the Maryland Colony —*Argus*

The Augusta Journal says that about two hundred and fifty persons have united with the several churches in that city, under the present religious awakening

THE BOWDOIN SOCIETIES The officers of the College Societies, chosen at the annual elections, recently held are as follows

[illegible] 3d Librarian.

THE NEW ORLEANS REVOLUTION. The recent movement at New Orleans, of which accounts are given daily by telegraph, appears to have been determined upon more especially with an eye to the municipal election of the 7th—the Vigilance Committee being the result of an "Independent party" which aimed particularly to defeat both the American and Democratic parties, and as they say, obtain men to manage the municipal affairs who will not combine with rogues and scoundrels, but will endeavor to bring them to justice With that object, a proclamation was issued saying that all citizens would be protected in voting, and not subject to violence as before

The end proposed is a desirable one certainly, but we regard the means as most dangerous, and such as can receive no countenance from reflecting men It is indisputably true, as the New York Times says, that "the movement indicates a tendency on the part of our people which must be checked, or it will inevitably plunge us into hopeless anarchy. If bodies of men can upon their own motion seize the Government, overawe the regular officers of the law and take the power into their own hands, we may as well abandon all pretence of maintaining permanent institutions, and concede that we are at the mercy of the faction which happens for the moment to be the strongest and the most audacious The toleration of such a system as that before which the city of New Orleans has just succumbed, throws us back into the condition of Mexico, where government is purely a matter of force, and where one administration stands only until another party becomes strong enough to overthrow it. The practice began in San Francisco It has reached New Orleans and may ere long be tried in New York There is abundant material there for just such a process, and nothing but a few more such examples as have been furnished is needed, to stimulate the audacity of party factions to resort to the same mode of securing their own ascendency.

FARMING VERSUS LUMBERING IN AROOSTOOK. A correspondent of the State of Maine, at Houlton gives the following among other replies in regard to farming in New Brunswick, —and they apply also to the Aroostook region

Farmers who have well attended their farms have in all cases improved in wealth some more and some less but all improved Farmers who went lumbering of course neglected their farms, and three fourths of them have sunk their farms and much more

ISRAEL PARENT

I know many single men who came here penniless, and within fifteen years have fine farms of their own, well stocked, and are now with their families living in comfort and plenty. Industrious farmers, or even men who were no farmers who attended exclusively to the business, *uncommonly* improved in their circumstances If you see a farmer going back in the world you need not ask why—he has left his farming, and in his haste to get rich has taken to lumbering JAMES RANKIN

The above taken at random from a score of replies all of a similar character, shows conclusively that to farm profitably it will not do to go into lumbering in connection Lumbering to be prosecuted successfully must be carried on independently of farming

In the vicinity of Houlton are some magnificent farms. I was shown thirteen farms on which ten thousand bushels of oats were raised in one season 50 and 60 bushels of oats to the acre is not an unfrequent crop For a few years past wheat has been somewhat destroyed by the weevil though generally good crops of wheat have been raised in this section

For grazing purposes no better country can be found anywhere The crops of grass are immense. Buckwheat is also a great crop,—Many kinds of fruit thrive remarkably well here, more particularly plums.

Curious Extracts from Hill's History of Mason, N. H.

LEGAL REGULATION OF COURTSHIP IN OLDEN TIME

Not content with rejecting the power of the English clergy, our ancestors went farther, and would not allow their own clergy to celebrate marriages Only the governor, deputy governor and assistants, had authority for many years to celebrate marriages These magistrates having exclusive power to celebrate marriages, construed that power to extend to all cases, and even presumed to marry themselves Lt. Gov Bellingham was fined for marrying himself, so also, was Mr Joseph Hills of Malden

Having regulated the celebration of marriages, the court next undertook to regulate courtship by law The act for this purpose was passed by the general court of Massachusetts, November 11, 1647 The preamble is as follows "Whereas, God hath committed ye care and power unto ye hands of parents, for ye disposing of their children in marriage, so yt it is agreeable to ye rule to seek to draw away ye affections of young maydens, under pretence of purpose of marriage, before their parents have given way or allowance in ye premises, and whereas it is a common practice, in divers places, for young men irregularly and disorderly to watch all advantages, for their evil purposes to insinuate into ye affections of young maydes, by coming to them in places and seasons, unknown to their parents, for such ends, whereby much evil hath grown amongst us to ye dishonor of God and damage to ye parties, for ye prevention whereof, for time to come, it is ordered, &c, and making it a penal offence, to endeavor directly or indirectly to draw ye affections of any mayden in this jurisdiction, under pretence of marriage, before liberty and allowance therefor by the parents, &c, or in the absence of such, by the court. The punishment was a fine for the first and for the second offence for the third to be put under bonds, failing to procure which the offender was liable to be punished at the pleasure of the court. Fancy the trial of an action in court! The Commonwealth vs. Richard Roe, for seeking to draw the affections of Dolly Doe, without the consent of her parents, &c, first being had

HOW OUR ANCESTORS LAID OUT THEIR ROADS. On page 60 we find a couple of amusing descriptions of the laying out of roads.

"Voted, To scrape a road laid out two rods wide, from New Ipswich line, through Amos Deakin's land, beginning at a *heap of stones* on a *stump* and running to a hemlock tree on the bank of the river, then running as the marks direct to the bridge," &c A heap of stones on a stump," would not be regarded in these days as a suitable boundary to mark the limits of a road.

A most remarkable sample of such work is found in the records of Townsend It is as follows, under date of 1787. "Voted, a highway from the Pearl Hill brook to the place where the timber is out to build a bridge, and from the said bridge as the Little Goose pond, near where Hornsby and Wallis and Brown and Wyman and Woodbury goeth along in their bay, from thence we come cross the pond to the Rather Goose pond and over the dam thereof, thence to [illegible] the plain, and so down the little footpath till we pass the little brook and into the cartpath by the knowl, this side of James Stevens' house, from thence down by said last path till we come to the hollow beyond Horseley's field, so along Horseley's west line to Deacon Spaulding's meadow lot, from thence over Rackkoon brook and across the corner of Manning's land, and from thence across the plain to the corner of the lot Daniel Sartell lives on, and turning said corner on John Stevens land, and come along near the line between the lot Sartel lives on, and Stevens' land, to Hartshorn's brook, where the cartway goeth over, from thence on said Stevens' land between the lot aforesaid and Hartshorn's farm to John Scale's old house place, from thence to Scale's nor east corner, which we found to be three miles and one hundred and sixty pole"

REGULATING PRICES BY LAW.

The following are some of the prices "stipulated" by the towns in that vicinity, at the time when the State and continental currency began to depreciate The date is Feb 20, 1777

	s	d
Wheat per bushel,	6	8
Rye per bushel,	4	4
Corn per bushel,	3	4
Sheep's wool, per pound,	2	0
Fresh Pork,		4
Sal Pork,		8
Salt per bushel,	14	8
Dinner at tavern of boiled and roast victuals,	1	0
Dinner at tavern, for either boiled or roast only,		10
A mug of West India Philip,		11
" " New Eng do,		9

In August of the same year, we perceive that West India 'Philip' had gone up to 15 shillings a mug, and the New England article to 12 shillings

Some curious ways our forefathers had of ordering things in town meetings. A few sample specimens we take from the doings at Mason in 1781, and 1782

November 1st, 1781. "The selectmen made a rate of £18 is 4d Cq L mo silver, for the purpose of purchasing sixty three and a half gallons of West India Rum for the use of the *Continental* army

January 2, 1782 "Voted not to allow seats for the singers to sit together Voted, To choose another *querister* to assist in setting the Psalm, and chose Amos Dakin, Jr,

February 12, 1782 Voted, That the selectmen "strain on the Treasurer immediately"

"Voted, That Lt. Swallow and Mr John Whitaker dig the graves that are *reasonably* needed in said town"

Bogus Lotteries Again. More Arrests.

The following account of the discovery of more bogus lottery concerns in New Hampshire, may possibly open the eyes of some people in Maine to the "way and manner" in which they are suffering themselves to be humbugged by swindling concerns of this character.

Sergeant Berney, one of Mayor Tieman's private squad, has within a week visited the State of New Hampshire, exposed and broken up some fifteen or twenty swindling lottery concerns.

Proceeding first to Exeter N H, Mr. Berney called at the establishment of Hargrave, Burton & Co, South Kingston, which was located in the Post Office Building, and turned out to be owned by A R Berbeck, a son of the Postmaster, and a man named E F. Culden All the blank tickets were seized, and some *five hundred letters* which had that morning arrived for the firm, which all others that should subsequently come, were ordered to be sent to the dead letter office. Berbeck and Culden were out of the way.

The firm of Wm Plummer & Co, Plaistow, N. H., proved to be Wm P Shultz, the keeper of the Rockingham House. Shultz was "out of the way

The lotteries are of the class known as gift lotteries, the tickets for which are usually sold at $1 each. Cash gifts of $10 000 and less horses, piano fortes, watches jewelry, &c., are laid down in the schemes. The drawings however never take place, and the purchasers of tickets consequently receive no return for their money except a sip of paper embellished in the highest style of the typographic art, bearing the "number selected." Some idea of the extent of the business carried on by the firms named may be formed when it is stated that their receipts have averaged nearly *one hundred thousand dollars a month*

Four of the guilty parties were arrested, viz George F Calding William P. Shute, Alonzo Shute and Thomas Bradley

It was ascertained that when the drawings were to come off several hundred people congregated at the Stockingham House, to be present. Some would come three or four days before hand, and by this means shut a would do the day of the drawing he would pronounce the whole affairs a humbug, and declare if he ever came across the scamps who got up the affair he would have them tarred and feathered.

The postmaster at Atkinson Depot (where there are but two or three houses) acknowledged to Mr. Berney that eight different firms whose representatives live in Haverhill, Mass, had their letters sent there The Postmaster said that he could not tell where they lived, but they were in the habit of coming every day for their letters, and sometimes received as high as 600 a day He used to make $30 a year by his position as Postmaster, but since the above firms have had their letters mailed there he has realized about $2,000 per annum

During a heavy thunder shower on Friday night, the lightning struck a tree on the premises of Widow Lee in Cape Elizabeth, a few rods from the dwelling house, completely shattered about one quarter part of the trunk and splintering it up into small pieces.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

CONGRESSIONAL.

WASHINGTON, 8th.

SENATE.—The Senate voted this morning, 42 to 16, to extend the session to the 14th.—Further proceedings were uninteresting.

The credentials were presented for the next Senatorial term of six years, of Senators Hunter, Clay and Brown.

The Vice President laid before the Senate a communication from the Peruvian government respecting the guano on one of the Peruvian islands, which was laid on the table.

Mr Digler of Pa. introduced a bill repealing the Atlantic telegraph act of 1857.

The Army appropriation bill was discussed, and $25,000 voted for the alteration of the old arms into the breech-loading ones.

Mr Douglas' amendment, from the Committee on Territories, to appropriate $100,000 for its extension to Albuquerque, was passed.

Mr Davis of Miss, from the Committee on Military Affairs, submitted an amendment, making an appropriation of $1,280,000 for the continuation of the fortifications of the Penobscot, Portland, Me., on Lake Champlain at Fort Ridgely, Staten Island, in Delaware Bay at Baltimore, Richmond, Charleston, and various places in Florida, Mobile, on the Mississippi River, and at San Francisco.

HOUSE.—The House went into Committee on the Senate amendment to the Miscellaneous Appropriation Bill.

A debate ensued on the Senate amendment in regard to the arrangement with Messrs. Gales & Seaton, for printing the American State papers.

From Washington.

WASHINGTON, June 8.

The Secretary of the Interior has asked Congress for an appropriation of $100,000 to enable him to take measures to preserve the peace in the Northern superintendency, now threatened by invasion by large bodies of hostile Yanctonoies Sioux.

It is within the knowledge of the department that great dissatisfaction has existed for some years past among the turbulent bands of Sioux or Dacotah Indians, whose range is also to the Missouri river, and is now about to manifest itself in the inauguration of hostilities on a scale of alarming magnitude, the regular troops having been withdrawn, the frontier settlements are left entirely unprotected, and great alarm exists among the settlers who have appealed to the department for protection. The Secretary therefore earnestly appeals to Congress to act promptly in this emergency. He transmits a letter from agent Vaughan, in which it is stated that the Sioux are in a belligerent and refractory condition. During the past year they have been robbing indiscriminately every white man passing thro' their country, and in many cases threatening their lives. The withdrawal of the troops from Fort Pierce has caused the Indians to believe that government is afraid of them, and from their conduct and threats Mr Vaughan is satisfied, that no agent's life is safe in distributing annuities, without a suitable force to back him.

The President to-day communicated to the Senate the correspondence between DeOsma, the Peruvian Minister, and Secretary Cass, relative to the forcible seizure of the American vessels Georgiana and Lizzie Thompson.

N. H. Senatorial Nominations, &c.

CONCORD, June 8.

The Grand Chapter of Masons of N. H., have elected T. P. Abbott of Manchester as High Priest. The annual meeting of the Grand Lodge was fully attended, much more largely than on previous years. Moses Paul of Dover was elected Grand Master.

The Statesman is out to-night with a fierce article against Hale, favoring rotation, denouncing the clique of ambitious politicians in Washington who dominear over the party, pack conventions, and by low intrigues thwart the popular will in selecting candidates. They are termed a knot of conspirators, an irresponsible cabal, &c. The article is headed in large capitals, "The Republican party in danger," and has created a profound sensation.—Already there is talk of postponing the election of U S Senator. The Democratic caucus have nominated Hon John S Wells for U. S. Senator.

Notice was given in the House this afternoon of a bill to extend telegraphic facilities in New Hampshire. A petition for the purpose is signed by F O J Smith.

Evening.—The Republican caucus to-night was fully attended. On motion proceeded to nominate a candidate for U. S. Senator, which resulted in the choice of Hon John P Hale, by twenty-nine majority. Hale's friends are exultant.

Various Items.

NEW YORK, June 8.

The freight house at Hawkins, belonging to the Erie Railroad Company, was burnt on Sunday, together with all its contents, consisting of large quantities of leather, flour and other freight. Loss heavy.

NEW ORLEANS, June 5.

Gerard Stith, the American candidate for Mayor, is elected by a majority of 200 votes. Many of the other candidates on the American ticket are defeated. The city is quiet. The Vigilants have broken up their camp and disbanded, but they are not disorganized. They say they will hereafter be ready to carry out their principles at any moment. The municipal authorities are engaged in arresting all who are implicated in the Vigilant movement. Writs are also issued for the arrest of the leaders, on charges of high treason.

ST. LOUIS, June 8th.

A Leavenworth dispatch of the 4th, says the movement of the remaining column of troops for Utah, has been postponed in consequence of the unfavorable weather.

The Leavenworth Times announces the intention of Judge Lecompte to vacate his seat on the bench.

The action of the Executive of Missouri relative to arming and organizing the militia of the western counties of the State, is much depreciated at Leavenworth.

PORTLAND, June 8.

Fire this evening in the block on the corner of Exchange and Milk Sts., occupied by R. L. Day, paper dealer, and others; the contents mostly destroyed.

New York Markets.

Assignees' Sale.

AT AUCTION.

THE undersigned, Assignees of Albert Emerson, will sell at Public Auction, at the Auction Room of R. S. Prescott, No. 12 Central Street, Bangor, on THURSDAY, the 10th day of June next, at 10 o'clock in the forenoon, for the benefit of the creditors, all the estate of said Emerson, real and personal, remaining unsold, assigned to them, consisting of the following parcels of property, viz:

New, superior modern built House and Stable, with lot, on Lincoln street, Bangor.

Brick double tenement House, on Lincoln-st., known as the Taylor house.

House and lot, nearly new, on Davis-st, known as the Wheeler house.

Eight house Lots on Lime street.

Two Brick Stores, and lot, Mill street, Orono.

One double tenement House, and lot, adjoining said Stores.

One eigh Brig James Crosby.

Lot Lumber.

Lot demands.

The above sale will be made on favorable terms of payment, to be made known at the time and place of sale. The houses offered are all of them in good repair and pleasantly situated, and the whole property offers a good opportunity for such as wish to purchase for their own use, or for investment. The sale is made to close the assignment, and will be positive and without reserve.

Any information respecting the property will be given on application to either of the undersigned.

ALBERT W. PAINE,
THOMAS W. BALDWIN,

California Steamers,

Carrying the United States Mail.

5th and 20th of each month

Through Tickets including transit of the Isthmus via Panama R. R.

By order of the Postmaster General the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot Aspinwall and conveyed across to the Pacific Steamers *without any extra expense*. This is the only Line running, and the Through Tickets included in *one* of the Isthmus transits made in *four hours on wheels by daylight* thus avoiding the great exposure by night in open boats to fever and ague and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus secure a passage by the Mail Line *a sure and short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C L BARTLETT Agent
No 15 Broad Street, Boston

August 1 1857 1y

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt Geo Knight and the FOREST CITY, Capt. P A Prince will run as follows:

Leave Atlantic Wharf Portland, every Monday Tuesday Wednesday Thursday and Friday at 7 o clock P M and Central Wharf Boston every Monday, Tuesday, Wednesday Thursday, and Friday at 5 o clock P M

Fare in Cabin	$1 25
Fare on Deck,	1 00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms for the accommodation of Ladies and families and travelers are reminded that by taking this Line much saving of time and expense will be made and the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value and that personal unless notice is given and paid for at the rate of one passenger for every $500 additional value.

L. BILLINGS Agent.

June 12 1857 d f

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U S Patent Office Washington under Act of 1837.)

76 State Street, opposite Kilby st, BOSTON.

AFTER an exclusive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain France and other foreign countries. Caveats Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch. Research made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England but through it Inventors have advantage for securing patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. Hints from models below Patent prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and his SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during the twenty years past has enabled him to accumulate a vast collection of decisions and official documents relative to patents. These besides his extensive library of legal and mechanical works affords him facilities for obtaining Patents in the United States and Europe under him able beyond question to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent and all the usual great delay there, are here saved inventors.

TESTIMONIALS

During the time I was at the head of the Patent Office Commissioner of Patents R H Eddy Esq of Boston did business in the Patent Office as solicitor for procuring patents. He was very successful in procuring patents in cases which had before been refused by the Patent Office and in all cases he conducted with more ability than most of the other solicitors. I regard Mr Eddy as one of the best informed and most able solicitors in the United States and have no hesitation in assuring those who may employ him that they can rely upon his being a competent and faithful and in a form to secure for them a patent if any can be obtained at the Patent Office.

JOHN D BOLES
Late Commissioner of Patents

Appleton 17 1856—Dear Sir I have had the business of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business at the Office as a solicitor. He has a thorough knowledge of the law and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

OLDTOWN HOUSE,

Oldtown, - - - - - - Maine.

BY MRS HARRIET STINSON

The undersigned very respectfully informs her friends and the public generally that she has lately refitted and refurnished the *Oldtown House* and is prepared to accommodate all who may favor her with a call. Every attention will be bestowed upon guests and travelers, who are assured that for a brief or long stay, they will find their wants and comforts always cared for. The table will always be supplied with the best the market affords and all the luxuries of the season.

In connect on with the above House is a large and well finished hall, suitable for Dancing parties.

Connected with the House is one of the largest Stables in Oldtown with the best accommodations for horses and teams, which is under the care of a faithful hostler.

Parties from Bangor, or other places, can be accommodated on reasonable terms on giving a short notice.

HARRIET STINSON

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January 1858 said premiums to be distributed as follows—

For the largest list $300 2d, $250 3d $200 4th $150 5th $100 6th $50 7th $30 8th $20 9th $10 10th $5 11th $40 12th $30 13th $20 14th $20 15th $10

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan 1858.

Southern Western, and Canada money will be taken for subscription. Canadian subscribers will please to remit twenty six cents *extra* on each year's subscription to pre pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for six Months.

Club Rates—Five Copies for Six Months $4, Five Copies for Twelve Months $8 Ten Copies for Six Months $8 Ten Copies for Twelve Months $15, Twenty Copies for Twelve Months $23.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper with new type.

The general character of the SCIENTIFIC AMERICAN is well known and it therefore will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts Manufactures Agriculture Patents Inventions Engineering Mill Work* and all in connection with the light of Practice Science and calculated advance. It is issued weekly in form for binding it contains annually from 600 to 650 finely executed engravings and notices of American and European Improvements together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearless tone in combatting and exposing false theories and practices in Scientific and Mechanical matters and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street near the centre of the city and within a short distance of the Steamboat Wharves and the Depot of the P. K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

[illegible] personal attention to the comfort of its guests, the proprietor hopes to merit a liberal share of public patronage.

CHARTERED BY LEGISLATURE, JUNE, 1855

Authorized Capital $500,000 *Cash Capital paid in and securely invested,* $150,000

OBED P MILLER Secretary. WARD COWING, President.

BOARD OF DIRECTORS—Ward Cowing, William A Bradford Samuel B Darling Edward B Fay, George W Hall J C Gardinge, Obed P Miller, Thomas A Doyle, William B Ryder, George Cleveland, Philip Ryder.

THIS Company Insure against Loss or Damage by Fire on Stores Merchandise Dwellings, Mills Manufactories Hotels &c also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued and are to be prepaid in money and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks detached on very low terms.

The Company expect to deserve the confidence of the public by doing business on as favorable terms as any other similar institution and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance at once without delay, by the under signed at his office.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff and uneasy, but when this water-proof polish is remedied. By the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 26 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A NICHOLAS President. Office 70 Wall st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S Mint, Mr Lyman of the New York Clearing House and Meade Brothers, extensive and skillful photographers 233 Broadway, N Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$35 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$26 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts a lb

For Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent and much superior to any other, as the moist atmosphere of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the southern States Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York.

Ayer's Pills

Subjoined are the statements from some of our citizens, of their effects in the vicinity.

AS A FAMILY PILL

From Dr. E. W. Carter of New Orleans.

"Your Pills are the prince of purgatives. They combine all the virtues of the best medicines in the pharmacopoeia, and are so much more efficacious than any other pill, that they have superseded all others in my practice. For all those cases which require a cathartic we prescribe them with the assurance that they will do their work effectually, and leave no bad effects to follow. We consider them invaluable to the medical profession, and the public generally, as the best family cathartic for the prevention and cure of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS

From Dr. Theodore Dwight of New York City.

"Not only are your Pills adapted to the purposes for which they are intended, but I find they do more than any other medicine to stimulate the Liver when it is torpid. I have for years been in the habit of prescribing calomel in my practice, but now I find your Pills to be a safe substitute for it, and I believe that we have at length a purgative on which we can rely, and which will secure the confidence of the profession and the public."

DYSPEPSIA—INDIGESTION

From Dr. Henry J. Foot of St. Louis.

"The Pills you were kind enough to give me I have used in my practice and have found them to be a very valuable cathartic, well adapted to the diseases of the digestive organs. I shall be happy to work upon them alone. I have found them prompt and thorough in their action, and find they will do all that can be required of any cathartic, and more than any one of the other cathartics we now use. I feel that we have at length a pill in which the public may place the confidence of the profession and the public."

DYSENTERY—DIARRHŒA—BILE

From Dr. J. G. Green, Chicago.

"Your Pills have had a long trial with me, and I hold them in esteem as one of the best cathartics in the world. The effects they produce are those of an excellent remedy when given in the various forms of dysentery and diarrhœa. Their small size and ease of taking render them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SPINAL DISEASE

From Mrs. E. Sherry, with previous to Dr. Ayer's prepared Liver Pills.

"I find one or two large doses of your Pills taken at the proper time, are sufficient to expel worms from the system when wholly or partially passed, and have proved effectual to cleanse the stomach and expel worms. They are so much the best physic we use, that I recommend them to my patients."

CONSTIPATION—COSTIVENESS

From Dr. J. P. Lawrence of Richmond, Va.

"Your pills cannot be said to fail in producing the desired result. If taken in doses of our fathers, they are as efficacious as I have found any pill. If taken in the usual dose, they will seldom fail to produce a cathartic effect. In a case of long standing constipation, which had resisted all other cathartics, a dose of your pills produced the desired effect, and I have no doubt of their ultimate success in this complaint, which is so obstinate in its character, and so productive of other evils."

IMPURITIES OF THE BLOOD—SCROFULA—FEVER SORES—SALT RHEUM—TETTER—TUMORS—RHEUMATISM—GOUT—NEURALGIA

From Dr. Enfield of Philadelphia.

"You were right. Doctor Ayer's Pills are the best purgative for the blood. They do that. I have used them in my practice, and agree with you in their effects. They stimulate the excretory ducts and organs into healthy action, and thus eliminate the impurities from the blood. They also stimulate the organs of digestion and give vigor to the whole system."

"Such remedies as these prepared by Dr. Ayer should be known and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—PAIN IN THE STOMACH—PILES—DROPSY—LOSS OF APPETITE—PARALYSIS—&c

From Dr. Edward Bayne, Boston.

"DEAR DR. AYER: I cannot answer your letter better than by saying that I have cured with your Pills far more than any other cathartic. I have found them to be the most efficacious cathartic in my practice, and I feel bound to say so. Many of my patients, who had tried many other cathartics, have expressed themselves in the same way. I of course recommend them highly."

Most of the Pills in market contain mercury, which although a valuable remedy, should be used only by skillful hands in a public pill from the dread of its consequences, frequently follows its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every one of it under his own eye, will bear the test of analysis and care. It is sent out, unprovided by any of the nauseous drugs and compounds which, though they may be called medicines, are more to be feared than the diseases they are recommended to cure. It is a concentrated vegetable preparation, containing the virtues of a dozen other medicines, which are known to be valuable in the treatment of pulmonary complaints, but which are so combined with other ingredients, that they cannot be used by the most skillful practitioner with the same certainty of good results. Its effects are those which the medical profession and the public have long been seeking for, but which they have sought in vain, because they have been in the form of crude, indigestible mixtures, which the stomach could not digest, and which, therefore, could not do good. This preparation is free from all these objections, and may be taken by the most delicate invalid, without injury, and with the certainty that it will do its work of healing. Its effects are those of a tonic, as well as a medicine, and it will be found to strengthen the system while it cures the disease. Its tonic effect is due to the iron which it contains, in a form in which it can be taken by the most delicate invalid, without producing the injurious effects which are produced by the use of other preparations of iron. Its expectorant and healing properties are due to the balsamic medicines with which it is combined, and which have been found by experience to be the most effectual remedies for the various pulmonary complaints which are prevalent in our climate. The extraordinary cures which have been made by this medicine, and the unimpeachable character of the testimony by which its virtues are attested, have made it the leading medicine of its class, and have given it a world-wide reputation. Its cures are so numerous, and its effects so decidedly beneficial, that there is hardly a family in this community which has not been benefited by it, or some of whose members have not been saved from the grave by its use. Many of these cures have been made when all other means had failed, and when the patient was given up by his friends and physicians to die. Many of these cures are known to our citizens, and we publish a few of the most recent and remarkable of them for the benefit of those who may be in doubt as to the existence of a medicine which can do their disease any good. We do not publish them to induce the sick to try a new medicine, but to convince those who have long suffered from pulmonary complaints, that there is a remedy which has cured others, and which may cure them.
